

Kenesis, Logo Rotator

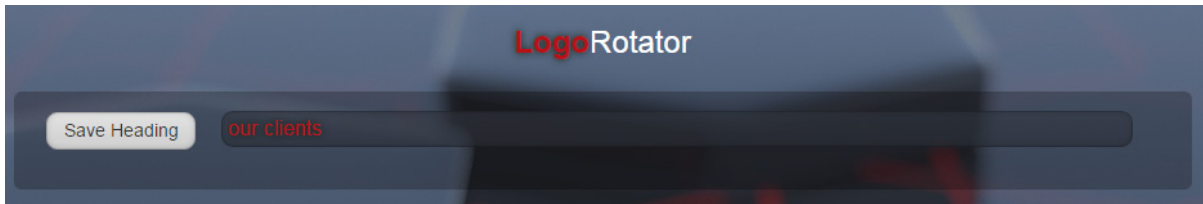

LOGOROTATOR

Logo Rotator is a simple widget used to promote or show case your Clients, Dealers, Resellers, Brands etc. by placing their logo in a small rotating banner, their logos can also be linked to their website.

You will find the ***Logo Rotator*** underneath MyWidgets.

CHANGING THE HEADING OF YOUR LOGO ROTATOR

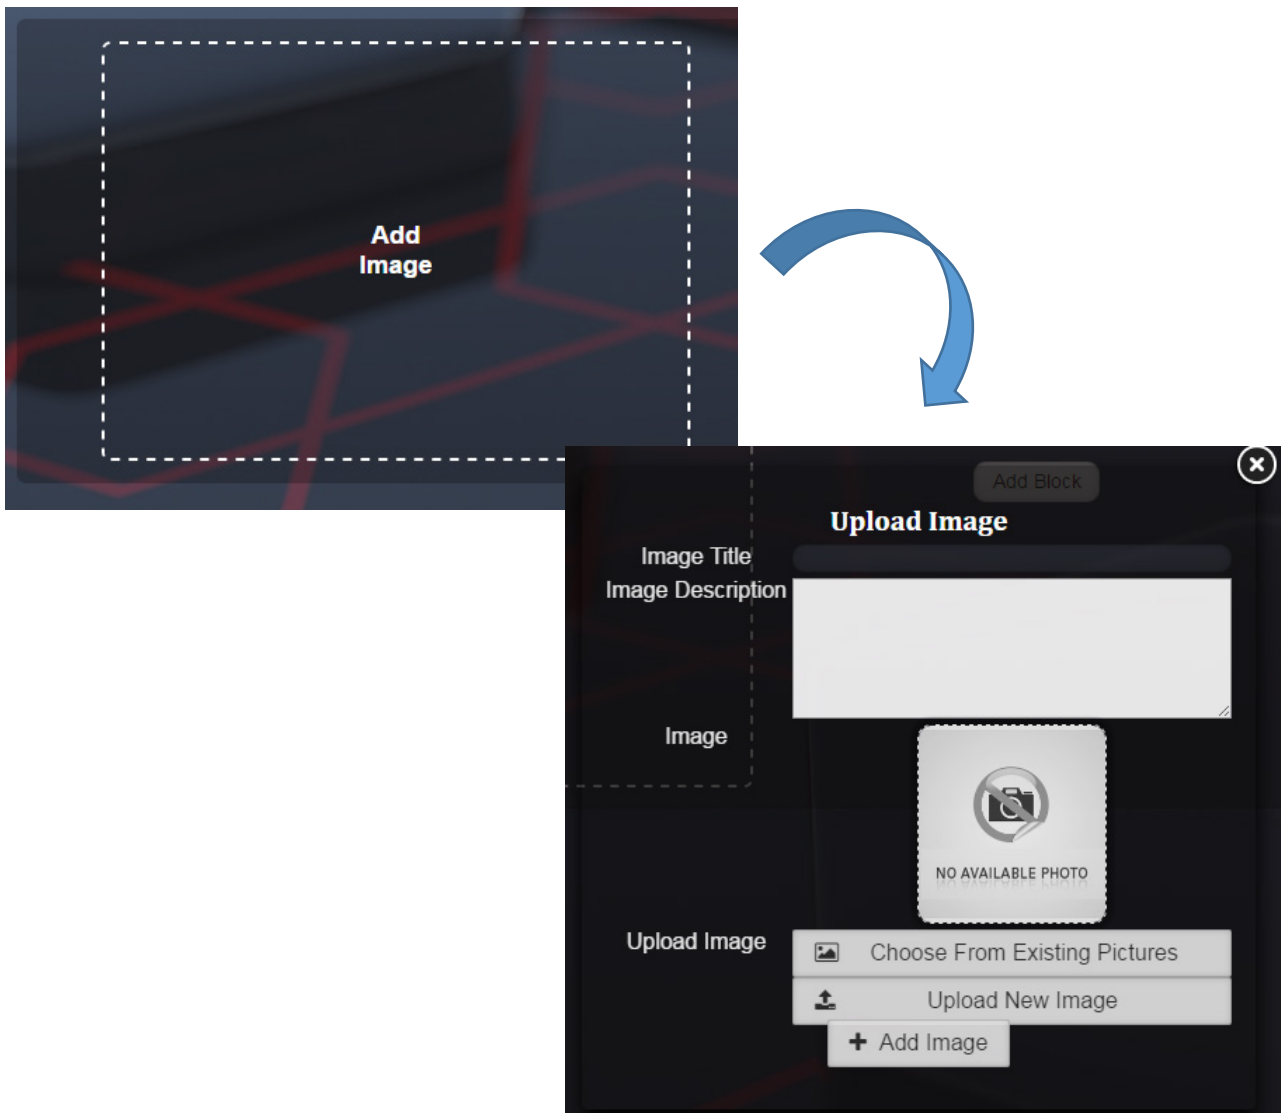

To change the heading on your ***Logo Rotator*** simply type in the heading you would like to use and click on ***Save Heading***

ADDING A LOGO TO YOUR LOGO ROTATOR

To add a Logo to your ***Logo Rotator*** click on the ***Add Image*** block, a window will then pop up allowing you to add an image from ***Existing*** which is the images you have uploaded to your image manager, or you can upload a ***New Image*** from your PC.

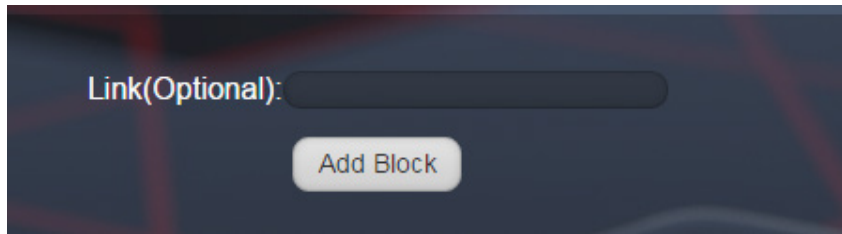

After choosing your image click on ***Add Image***.

ADDING A LINK TO YOUR LOGO

To add a link to the logo you just added, copy the url that you would like it to link to and paste that url into the block provided, labelled ***Link(Optional)***

Once you have done that click on ***Add Block*** to add the next logo.

EDITING AND DELETING A BLOCK

To edit a block, click on ***Edit Image*** a window will pop up where you can choose an image from your pc or you can choose one from existing images in your ***Image Manager***

Once you have changed the image you can also change the url by simply clearing the ***Link(Optional)*** field and pasting in your new Link.

Then Click on ***Edit Block*** for change to reflect on your website, and ***Delete Block*** to delete the entry.
